

ASSOCIATE PROVIDER

THE NHS HEALTH AT WORK NETWORK

THE VOICE OF NHS OCCUPATIONAL HEALTH

Become an NHS Health at Work Network Associate Provider in 2024

About us

The NHS Health at Work Network influences and advises Government and other key national stakeholders about occupational health in the NHS. With 119 member organisations, our Network accounts for approximately 95% of all NHS OH providers in England which in turn look after almost one million NHS staff.

We are pleased to be working closely with NHS England on their Growing Occupational Health and Wellbeing Together strategy and proud that we are the 'go-to' organisation representing NHS occupational health. Most importantly of all, the Network exists to represent and be the voice of its members.

Health at Work Network

Associate Provider Member Benefits include

'We find our Associate Provider membership to the NHS Health at Work Network hugely valuable as it enables us to share knowledge, experience and insights directly with others who work in the field of NHS occupational health. The single source of information that the Network community provides helps to inform and direct our work as we all work together to improve the health and wellbeing of our NHS colleagues.'
