About us

The NHS Health at Work Network influences and advises Government and other key national stakeholders about occupational health in the NHS. With 119 member organisations, our Network accounts for approximately 95% of all NHS OH providers in England which in turn look after almost one million NHS staff.

We are pleased to be working closely with NHS England on implementing their Growing Occupational Health and Wellbeing Together strategy and proud to be the 'go-to' organisation representing NHS OH. We also provide a gateway for businesses in the broader community who are seeking OH advice and support.

Most importantly of all, the Network exists to represent and be the voice of its members.

THE VALUE OF THEIR
MEMBERSHIP

“It gives me access to specialists who understand what it’s like to work in NHS OH services - I can talk to them about issues which other professionals in my Trust just do not appreciate. It makes me feel supported, safe and connected.”
