## Join today and reap the benefits of NHS Health at Work Network Membership!

### About us

The NHS Health at Work Network influences and advises Government and other key national stakeholders about occupational health in the NHS. With 111 member organisations, our Network accounts for over 90% of all NHS OH providers in England which in turn look after almost one million NHS staff.

We champion the NHS Growing Occupational Health and Wellbeing Strategy and are proud that we are the go-to organisation representing NHS occupational health. We also provide a gateway for businesses in the broader community who are seeking OH advice and support.

Most importantly of all, the Network exists to represent and be the voice of its members.

SATISFIED WITH  
THE VALUE OF THEIR  
MEMBERSHIP**

**“It gives me access to specialists who understand what it’s like to work in NHS OH services - I can talk to them about issues which other professionals in my Trust just do not appreciate. It makes me feel supported, safe and connected.”**
