### **About us**

The NHS Health at Work Network influences and advises Government and other key national stakeholders about occupational health in the NHS. With 111 Member organisations, our Network accounts for over 90% of all NHS OH providers in England which in turn look after almost 1 million NHS staff.

We champion the NHS Growing Occupational Health and Wellbeing Strategy and are proud that we are the go-to organisation representing NHS occupational health. Most importantly of all, the Network exists to represent and be the voice of its members.

**'I've spoken to more people on the first evening than I did over two days of a much larger Conference I recently attended. I thought the Conference was excellent.'**
